

Cento: Your Gateway to Smarter Experiences

From first contact to final impression,
Cento transforms everyday interactions
into intelligent, lasting experiences

We Understand Your World

Citizens expect more.

Whether they're first-time visitors, seniors, or families, they want fast, accurate, human-like assistance in their own language.

Front desks are overwhelmed.

Staff are stretched thin, and residents' attention is shorter than ever.

Service points are under pressure.

Moments of confusion, curiosity, or chaos demand clarity, empathy, and intelligence.

Enter Cento - Built to step into these moments with presence, precision, and personality.

The Cento Series – Tailored to adapt your needs

Every Cento model meets a specific challenge with clarity, personality, and smart automation.

Cento 1.0 – The Calm in the Chaos

Role

Multilingual receptionist | digital way finder | human centric host.

Ideal for

High footfall service areas where staff are overburdened, visitors anxious, language barriers exist, and directions are confusing

What It Can Do for you

-  Speaks multiple languages
-  Gives clear voice + visual guidance
-  Answers FAQs (services, hours, locations)
-  Displays branded announcements or alerts
-  Enables fully contactless interaction

Impact

Reduces human dependency by up to **70%** for routine queries, improves visitor satisfaction, streamlines navigation, and creates a modern, intelligent front of house experience.

Cento 2.0 – The Genius on the Move

Role

A fully autonomous, emotionally intelligent guide - built to teach, counsel, and navigate.

Ideal for

Dynamic spaces like innovation hubs, educational zones, and public areas where static kiosks and traditional guides fall short.

What it can do for you

-  Conversational AI + LLMs for multi language, context aware responses
-  Speech tone alignment with your brand
-  Animated facial displays for emotional resonance
-  Gesture-driven engagement
-  Multimedia content for information sharing
-  SLAM based autonomous navigation
-  Plug and play portability
-  AI powered assessments (e.g. aptitude)
-  Interactive education mode with recallable spoken modules and visual aids
-  Remote monitoring & mobile / dashboard control

Impact

Brings intelligent, emotional conversation anywhere; boosts learning, guidance, and support; and delivers a tech forward, engaging public presence.

Cento Mini – Small in Size. Huge in Potential

Role

A compact, kid friendly robot made to delight, educate, and engage kids.

Ideal for

Learning and community spaces with young audiences needing approachable and intelligent interactions that provide memorable experiences

What it can do for you

-  ~1.1 metres tall, approachable design
-  Cutting-edge speech to text (STT) and text to speech (TTS)
-  Interactive educational activities blending play and purpose
-  Version ready hardware supporting future upgrades

Impact

A scalable, child friendly humanoid platform that starts smart and grows smarter, perfect for education today, and automation tomorrow.

Cento in Action: Impact Across Diverse Segments

Retail (Australia)

Enhanced in-store engagement with multilingual assistance and analytics.

Education (Middle East)

Boosted student learning with interactive, multilingual humanoid support.

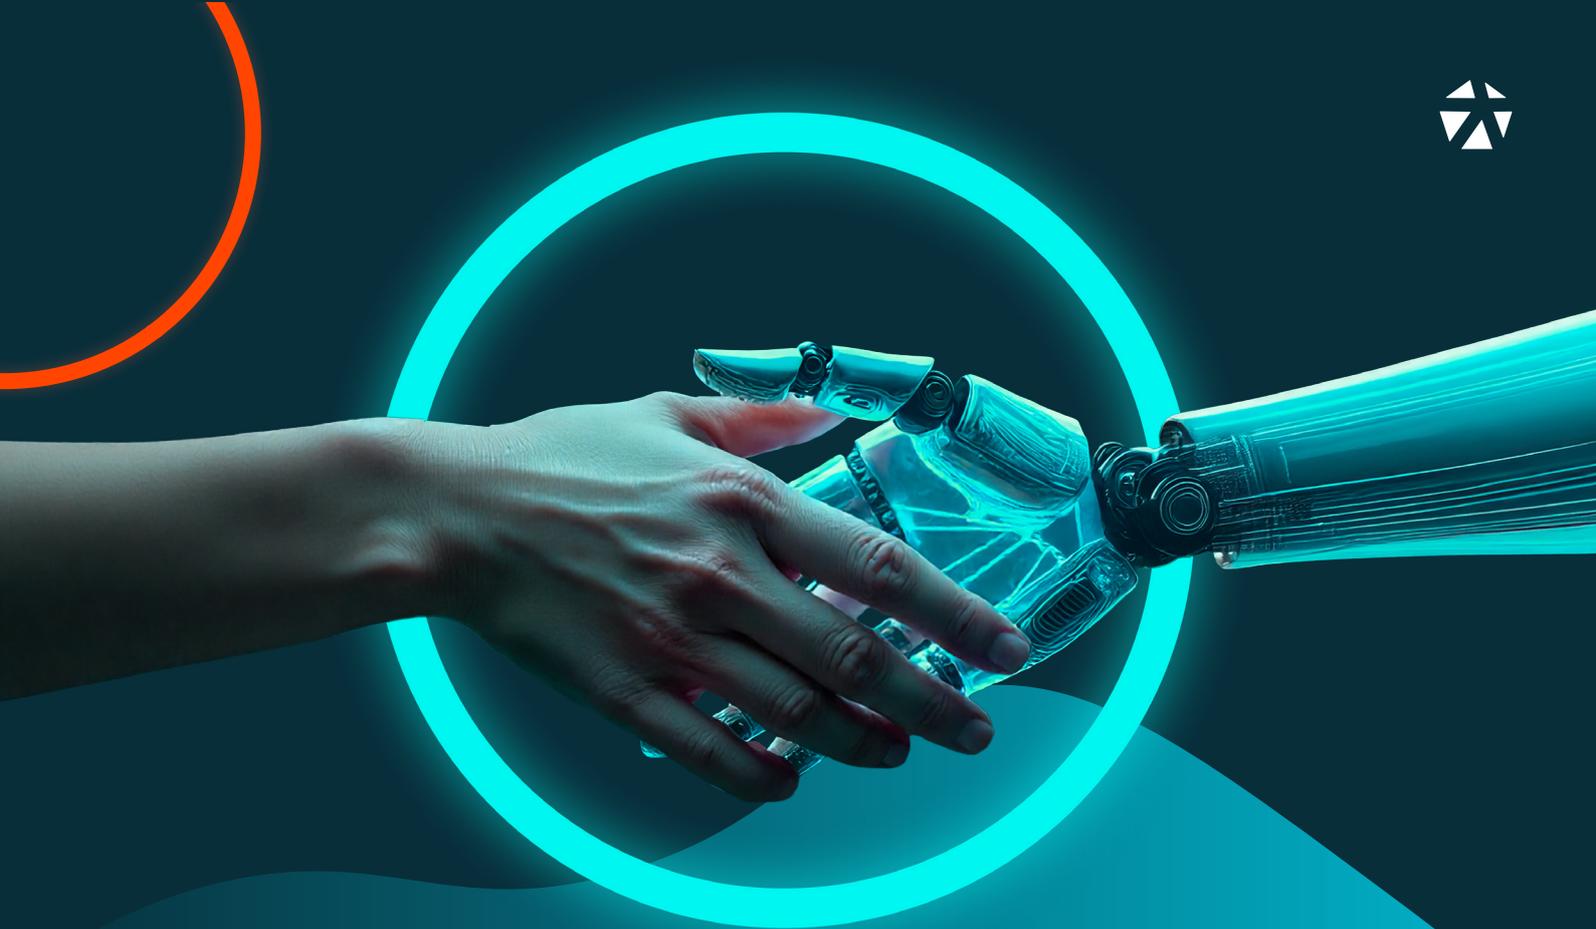

Career Guidance (India)

Scaled assessments, tripling student participation and engagement.

Aviation Training (India)

Improved cadet recall and cut trainer workload by **40%**.

About Centelon Group

Centelon is a Melbourne, VIC-based technology solutions company that has grown from two employees in 2017 to nearly 400, spread across multiple locations. We serve several large and medium enterprises as well as government departments and non-profits in their digital transformation journeys. Over the course of several years, we have built several IP assets that enable us to significantly increase impact for our customers' businesses and improve time to realisation for them.

Centelon Public Sector is the dedicated business unit leveraging Centelon Group's capabilities to serve government and public sector entities across Australia and New Zealand.

About Centelon Robotics

Backed by the Centelon Group, our vision is to integrate hardware precision, software logic, and intelligent responsiveness, to create solutions that align with how people live, feel, and work.

From humanoid robots to IoT Platforms, Centelon Robotics transforms your world with automation, insight, and adaptive design.
